EXTRAMURAL CREDIT COURSES

1968 SPRING SEMESTER
DIVISION OF UNIVERSITY EXTENSION
UNIVERSITY OF ILLINOIS

YOUR STATEWIDE CAMPUS

The University of Illinois conducts extramural courses for credit in many subjects for students who cannot attend classes on the campus. In certain areas, when other University requirements have been met and approval has been secured for courses pursued from the college or school in which the degree is to be taken, students may earn up to sixty undergraduate semester hours toward the baccalaureate degree or four units toward the master's degree through the extramural or off-campus program. Credit earned in extramural classes may not be used in lieu of University residence requirements. Course content, quality standards, and work requirements are similar to those in campus classes.

REGISTRATION PROCEDURE

Note: Enrollment in certain of these classes is limited. Interested persons may request that a place be reserved by writing to the address indicated just below the description of the course.

Registration in extramural courses is completed by mail immediately following the first meeting of the class. At the first meeting the instructor outlines the nature of the course and answers questions of prospective students. *Registration materials and instructions are issued at this meeting.*

Registration is not complete until all registration forms have been submitted to the Office of Admissions, and approved, and fees paid in full. *Registration forms and fees received after the fourth meeting of the class are not accepted.*

Applicants for registration in extramural credit courses who expect to be admitted to regular standing or as candidates for degrees should supply official transcripts from all institutions attended other than the University of Illinois, and should have such transcripts sent to the Office of Admissions by the fourth meeting of the class. Those who have previously registered with the University and who have complete transcripts on file should not resubmit them.

CREDIT AND TUITION FEES

Credit earned in extramural courses cannot be counted as residence credit. Candidates for certain degrees may, however, apply up to sixty undergraduate semester hours toward the baccalaureate degree or four units toward the master's degree for credits earned in the extramural program, if other University requirements have been met and approval is secured for courses pursued from the college or school in which the degree is to be taken.

Students who are employed full time may not register for more than *one unit of graduate work each semester,* and not more than two units of graduate credit in extramural courses may be earned during an academic year. Courses at the 400 level are not open to undergraduate students for credit.

It is recommended that *undergraduate* extramural students who are employed full time register for no more than six semester hours of work each semester.

Auditors or visitors may register in credit courses by obtaining consent of the instructor. They must, however, pay regular fees assessed for the course. In the case of multiple credit courses the visitor pays the lowest fee assessable.

Credits given by the courses and tuition fees assessable are listed with the course description for each of the courses in this bulletin.

GRADES

The system of grading is as follows: "A," excellent; "B," good; "C," fair; "D," poor (but passing); "E," failure.

Official transcripts of grades are sent to extramural students who have completed courses only upon specific request to the Recorder's Office.

UNDERGRADUATE COURSES

Undergraduate extramural courses are open to all applicants who can meet course prerequisites and University

entrance requirements. The Dean of the Division of University Extension may also approve the applications of those eighteen or more years of age who are unable to meet University entrance requirements, when in his opinion they can pursue the course with success.

Students enrolling in extramural undergraduate classes who are candidates for degrees must meet general requirements of the University with respect to residence, hygiene, physical education, and rhetoric. They must also conform to the requirements of the curriculum selected in regard to electives and the total number of hours required for graduation. In addition, minimum scholarship requirements which the University has approved for the college or school must be met.

GRADUATE COURSES

Registration in any of the courses listed in this bulletin does not necessarily imply registration in the Graduate College of the University of Illinois. There are three different types of admission to graduate courses:

ADMISSION TO FULL STANDING IN THE GRADUATE COLLEGE. A minimum grade-point average of 3.5 (A = 5.0) for the last sixty hours of work completed is required of applicants for admission to full graduate standing in all departments, although certain departments require a higher average. A student who meets these requirements may qualify for work toward a degree. However, the responsibility for meeting the residence and course requirements specified by the Graduate College and the major department rests with the student. Each student who is admitted to full standing should immediately request his major department to appoint an adviser.

ADMISSION NOT AS A CANDIDATE FOR A DEGREE. A student who does not meet the scholastic requirement for admission to the Graduate College may register in courses listed, with approval of the instructor, but credit cannot be applied to an advanced degree at this University. Graduate students who wish to earn credit without reference to an advanced degree may also be admitted to this status.

ADMISSION AS A VISITOR. A student may be admitted to the course as a visitor provided that such admission is approved by the instructor in charge. Registration as a visitor will not entitle the candidate at any future time to graduate credit in the course attended by him as a visitor.

GRADUATE MAJORS IN EDUCATION

The University of Illinois awards two degrees that are of particular interest to graduate students who major in education and who wish to do part of their graduate study in extramural courses. The Master of Education program has been designed for teachers, supervisors, counselors, and others engaged in educational work that demands broad, fundamental, and practical preparation for dealing with educational problems. The program leading to the Advanced Certificate in Education requires the satisfactory completion of a year of specialized professional study. This program is for experienced teachers who have master's degrees.

The general requirements of the Graduate College apply to programs of study leading to these degrees. To meet requirements for either degree, a student must qualify for admission to the Graduate College and subsequently complete an approved program consisting of at least eight units of graduate work. A minimum of four units must be taken while the student is in residence on the Urbana campus. (This requirement may be satisfied through the completion of two units in each of two summer sessions.) Beyond this minimum, courses may be taken in extramural centers or by commuting to the campus for part-time study. Regulations governing these degrees allow freedom in planning individualized programs. The program of study that an individual student proposes to follow must be submitted in writing to the College of Education Office by the student's faculty adviser. The student who registers before his program is approved and recorded in the College of Education Office has no assurance that the credit he earns will be accepted as part of his degree requirements. The mere accumulation of credits does not entitle a student to a graduate degree. It is therefore imperative that each beginning student arrange for the appointment of his adviser immediately after he gains admission to the Graduate College as a degree candidate.

Request for appointment of advisers should be addressed as follows:

Advanced Certificate candidates or Master of Education candidates: Graduate Department of Education, 110 College of Education Building, Urbana.

MILITARY SCHOLARSHIPS

An act of the General Assembly of Illinois in 1919, amended in 1943, 1951, 1953, and 1963, provides Military Scholarships for veterans of World War I or for veterans who served on active duty at any time after September 16, 1940, who were residents of the state of Illinois, or had been bona fide residents of this State until at least six months prior to entering such service and who after leaving service returned to this State within six months and have resided in this State for not less than one year immediately prior to the date of their application, or students of the University at the time of enlistment, provided they are not receiving financial assistance for educational purposes from the federal government. The scholarship exempts the holder from the payment of tuition for a period of four years. Application should be made to the Director of Admissions and Records of the University of Illinois prior to registration in an extramural course if the scholarship is to be used in lieu of tuition. Honorable discharge papers and service record or photostats thereof must be submitted with the application.

VETERAN'S INFORMATION

Veterans who wish to enroll under the "Viet Nam G.I. Bill" must also present a Certificate of Eligibility from the Veterans' Administration and pay the full amount of the tuition. Under this bill they receive reimbursement from the Veteran's Administration for the cost of tuition.

WITHDRAWAL AND REFUND

Application for withdrawal and refund must be made to the Extramural Office in writing. Withdrawal forms are then sent to the student. If the student presents substantial and convincing evidence of inability to pursue the course as a result of circumstances not within his control, withdrawal is approved without penalty. In general, no refund is made for withdrawal effected after the fourth meeting of the class.

UNIVERSITY OF ILLINOIS SUMMER SESSION, 1968, AT URBANA-CHAMPAIGN

Authorization cards permitting campus registration in the 1968 Summer Session will be automatically prepared for graduate degree candidates who were registered on the Urbana campus in the 1967 Summer Session, or who were registered in an *extramural* course in Semester I or Semester II of the 1967-1968 academic year, and for all graduate students registered on the Urbana campus Semester II 1967-1968. If you were registered during any period described above and *did not withdraw from the University during your last enrollment,* you need not apply for readmission to the 1968 Summer Session. Persons who were *not* enrolled during these terms, or who dropped all courses being taken during their *last* registration, *must apply for readmission* if they expect to attend the Urbana Summer Session. Readmission applications may be obtained from the Office of Graduate and Foreign Admissions, 100 Administration Building.

EXTRAMURAL CREDIT COURSES

1968 FALL SEMESTER
DIVISION OF UNIVERSITY EXTENSION
UNIVERSITY OF ILLINOIS

YOUR STATEWIDE CAMPUS

The University of Illinois conducts extramural courses for credit in many subjects for students who cannot attend classes on the campus. In certain areas, when other University requirements have been met and approval has been secured for courses pursued from the college or school in which the degree is to be taken, students may earn up to sixty undergraduate semester hours toward the baccalaureate degree or four units toward the master's degree through the extramural or off-campus program. Credit earned in extramural classes may not be used in lieu of University residence requirements. Course content, quality standards, and work requirements are similar to those in campus classes.

REGISTRATION PROCEDURE

Note: Enrollment in certain of these classes is limited. Interested persons may request that a place be reserved by writing to the address indicated just below the description of the course.

Registration in extramural courses is completed by mail immediately following the first meeting of the class. At the first meeting the instructor outlines the nature of the course and answers questions of prospective students. *Registration materials and instructions are issued at this meeting.*

Registration is not complete until all registration forms have been submitted to the Office of Admissions, and approved, and fees paid in full. *Registration forms and fees received after the fourth meeting of the class are not accepted.*

Applicants for registration in extramural credit courses who expect to be admitted to regular standing or as candidates for degrees should supply official transcripts from all institutions attended other than the University of Illinois, and should have such transcripts sent to the Office of Admissions by the fourth meeting of the class. Those who have previously registered with the University and who have complete transcripts on file should not resubmit them.

CREDIT AND TUITION FEES

Credit earned in extramural courses cannot be counted as residence credit. Candidates for certain degrees may, however, apply up to sixty undergraduate semester hours toward the baccalaureate degree or four units toward the master's degree for credits earned in the extramural program, if other University requirements have been met and approval is secured for courses pursued from the college or school in which the degree is to be taken.

Students who are employed full time may not register for more than *one unit of graduate work each semester,* and not more than two units of graduate credit in extramural courses may be earned during an academic year. Courses at the 400 level are not open to undergraduate students for credit.

It is recommended that *undergraduate* extramural students who are employed full time register for no more than six semester hours of work each semester.

Auditors or visitors may register in credit courses by obtaining consent of the instructor. They must, however, pay regular fees assessed for the course. In the case of multiple credit courses the visitor pays the lowest fee assessable.

Credits given by the courses and tuition fees assessable are listed with the course description for each of the courses in this bulletin.

GRADES

The system of grading is as follows: "A," excellent; "B," good; "C," fair; "D," poor (but passing); "E," failure.

Official transcripts of grades are sent to extramural students who have completed courses only upon specific request to the Recorder's Office.

UNDERGRADUATE COURSES

Undergraduate extramural courses are open to all applicants who can meet course prerequisites and University

entrance requirements. The Dean of the Division of University Extension may also approve the applications of those eighteen or more years of age who are unable to meet University entrance requirements, when in his opinion they can pursue the course with success.

Students enrolling in extramural undergraduate classes who are candidates for degrees must meet general requirements of the University with respect to residence, hygiene, physical education, and rhetoric. They must also conform to the requirements of the curriculum selected in regard to electives and the total number of hours required for graduation. In addition, minimum scholarship requirements which the University has approved for the college or school must be met.

GRADUATE COURSES

Registration in any of the courses listed in this bulletin does not necessarily imply registration in the Graduate College of the University of Illinois. There are three different types of admission to graduate courses:

ADMISSION TO FULL STANDING IN THE GRADUATE COLLEGE. A minimum grade-point average of 3.5 (A = 5.0) for the last sixty hours of work completed is required of applicants for admission to full graduate standing in all departments, although certain departments require a higher average. A student who meets these requirements may qualify for work toward a degree. However, the responsibility for meeting the residence and course requirements specified by the Graduate College and the major department rests with the student. Each student who is admitted to full standing should immediately request his major department to appoint an adviser.

ADMISSION NOT AS A CANDIDATE FOR A DEGREE. Graduate students who wish to earn credit without reference to an advanced degree may be admitted to this status.

ADMISSION AS A VISITOR. A student may be admitted to the course as a visitor provided that such admission is approved by the instructor in charge. Registration as a visitor will not entitle the candidate at any future time to graduate credit in the course attended by him as a visitor.

GRADUATE MAJORS IN EDUCATION

The University of Illinois awards two degrees that are of particular interest to graduate students who major in education and who wish to do part of their graduate study in extramural courses. The Master of Education program has been designed for teachers, supervisors, counselors, and others engaged in educational work that demands broad, fundamental, and practical preparation for dealing with educational problems. The program leading to the Advanced Certificate in Education requires the satisfactory completion of a year of specialized professional study. This program is for experienced teachers who have master's degrees.

The general requirements of the Graduate College apply to programs of study leading to these degrees. To meet re-

quirements for either degree, a student must qualify for admission to the Graduate College and subsequently complete an approved program consisting of at least eight units of graduate work. A minimum of four units must be taken while the student is in residence on the Urbana campus. (This requirement may be satisfied through the completion of two units in each of two summer sessions.) Beyond this minimum, courses may be taken in extramural centers or by commuting to the campus for part-time study. Regulations governing these degrees allow freedom in planning individualized programs. The program of study that an individual student proposes to follow must be submitted in writing to the College of Education Office by the student's faculty adviser. The student who registers before his program is approved and recorded in the College of Education Office has no assurance that the credit he earns will be accepted as part of his degree requirements. The mere accumulation of credits does not entitle a student to a graduate degree. It is therefore imperative that each beginning student arrange for the appointment of his adviser immediately after he gains admission to the Graduate College as a degree candidate.

Request for appointment of advisers should be addressed as follows:

Advanced Certificate candidates or Master of Education candidates: Graduate Department of Education, 110 College of Education Building, Urbana.

MILITARY SCHOLARSHIPS

An act of the General Assembly of Illinois in 1919, amended in 1943, 1951, 1953, and 1963, provides Military Scholarships for veterans of World War I or for veterans who served on active duty at any time after September 16, 1940, who were residents of the state of Illinois, or had been bona fide residents of this State until at least six months prior to entering such service and who after leaving service returned to this State within six months and have resided in this State for not less than one year immediately prior to the date of their application, or students of the University at the time of enlistment, provided they are not receiving financial assistance for educational purposes from the federal government. The scholarship exempts the holder from the payment of tuition for a period of four years. Application should be made to the Director of Admissions and Records of the University of Illinois prior to registration in an extramural course if the scholarship is to be used in lieu of tuition. Honorable discharge papers and service records or photostats thereof must be submitted with the application.

VETERAN'S INFORMATION

Veterans who wish to enroll under the "Viet Nam G.I. Bill" must also present a Certificate of Eligibility from the Veterans' Administration and pay the full amount of the tuition. Under this bill they receive reimbursement from the Veteran's Administration for the cost of tuition.

WITHDRAWAL AND REFUND

Application for withdrawal and refund must be made t the Extramural Office in writing. Withdrawal forms ar then sent to the student. If the student presents substantia and convincing evidence of inability to pursue the course a a result of circumstances not within his control, withdrawa is approved without penalty. In general, no refund is mad for withdrawal effected after the fourth meeting of the class

EDUCATIONAL PSYCHOLOGY E411. PSYCHOLOGY OF ADOLESCENCE FOR TEACHERS

This course provides an intensive study of the physical and psychological development of the pupil during the period of adolescence. Emphasis is placed upon personality growth adjustments in social and economic relationships, and personal problems. Application of the principles of adolescent psychology is made to the organization of the curriculum, methods of instruction, and the guidance of pupils. A series of case studies is analyzed in class. The course is designed for teachers and administrators at both the elementary and secondary school levels. Prerequisite: Education 311 and 312.

Note: Enrollment in this class will be limited. Interested persons may request that a place be saved by sending the tear-off, pre-enrollment form in the back of this bulletin to Mr. Richard F. Casper, Division of University Extension, University of Illinois at Chicago Circle, Box 4348, Chicago, Illinois 60680. Pre-enrollments will be accepted in the order received except that Master's Degree or Advanced Certificate in Education candidates at this University will have preference.

MEETINGS: Addison Trail High School, 213 North Lombard Avenue, Room 219, at 7:00 p.m. on Mondays, beginning September 16, 1968.

INSTRUCTOR: Assistant Professor Charles K. West.

CREDIT AND TUITION FEE:
Graduate, one unit — $36.00.

HISTORY AND PHILOSOPHY OF EDUCATION E304. SOCIAL FOUNDATIONS OF EDUCATION

An introductory survey of the interrelationship between school and society and of the impact on public education of the major social trends and forces operating in our society. Designed to develop competencies in (1) understanding the role of culture in shaping both human personality and social institutions, (2) evaluating the effects of the various welfare and class levels in the United States on the lives of children and adults and on the work of the school, (3) understanding major elements operating in the social crisis of our time and the impact of these elements on education. This course meets a requirement with which all candidates for the Master of Education degree must comply.
